

GTCTIF (Game That Celeste Took Inspiration From) Mechanics

Controls

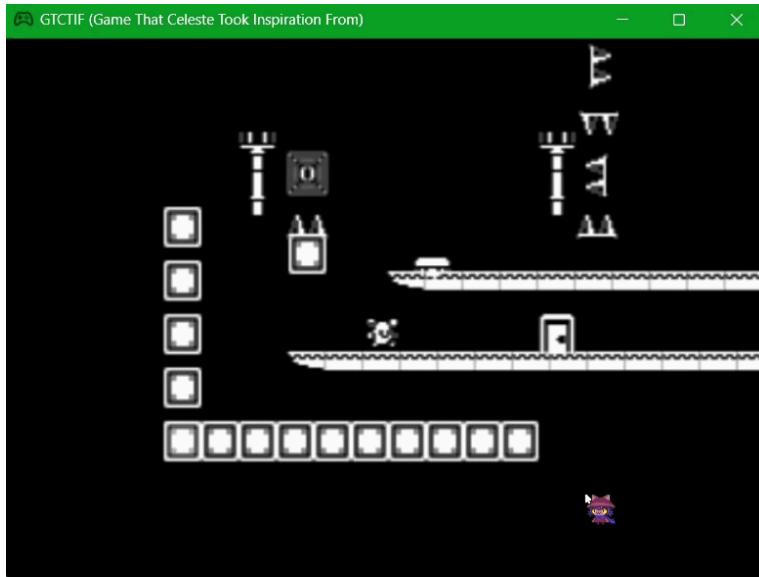

Arrows key: movements
Space: jump
X: Dash
R: Respawn
L: Reset entire level

1. Brick: blocks player

*The most complex mechanic in the game /s

2. Platform: Player can stand up, jump from below, and press Down Arrow to drop off

*Identical to Brick but even more forgiving

3. Spike: murders player

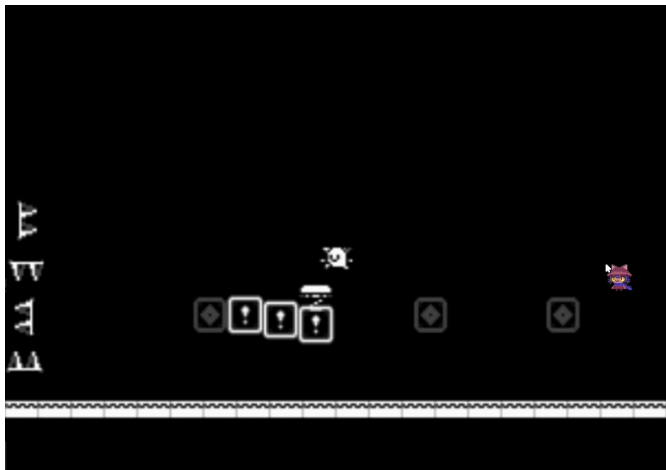

4. SpringPad: Launches player upward

*Can walk/dash into, jump onto to activate.

*Can jump from below

***DOES renew player's dash and double jump**

*Some springpads are on a falling brick. If activated, the brick will fall

5. Check point:active only once

*Wont work when u activate a further checkpoint

6. Falling blocks: Will start falling when on top of it

*Works like normal brick, but falls down after 0.5 seconds

*Respawn after 1.5 seconds

7. JumpGem: Gain 1 extra jump in air, reset when on ground

*Yes, player does have double jump (can jump airborne once unless they consume JumpGem as shown) by default

8. DashGem: same as jumpGem but for dash

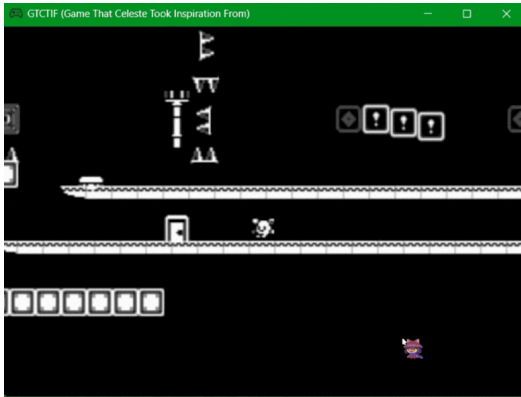

*Yes, player does have air dash (can dash airborne once unless they consume JumpGem as shown) by default

*Dash is renewed instantly when reaching the ground (player can bunny hop)

***Note that when u reach the ground, the effect of gems (both dash gem and jump) is also deleted**

9. Door: pass the level

Extra Info about the player:

- Can double jump
- Can dash/air dash, (dash skip cooldown instantly when reaching the ground) - which allows bunny hop
 - *Both double jump and air dash renew when reach the ground or platform
